

A close-up photograph of a field of golden wheat. The wheat stalks are ripe and have a warm, yellowish-gold hue. In the center of the field, there is a cluster of green weeds with small, dark green leaves and thin stems, contrasting with the golden wheat. The lighting is bright, suggesting a sunny day, and the overall texture is dense and natural.

thee from the snare of the fowler,  
and from the noisome pestilence.**
