

A close-up photograph of a garden scene. In the foreground, a large, smooth, light-colored rock is the central focus. A monarch butterfly with vibrant orange wings and black markings is perched on the left side of the rock. Another monarch butterfly is visible on the rock in the background. To the right of the rock, a small, green, succulent-like plant with tiny flowers grows. In the upper right corner, a single bright red flower is visible. The background is filled with more green foliage and rocks, creating a lush, natural setting. The text is overlaid in white, serif font, centered over the upper half of the image.
