

A photograph of a tulip garden. The foreground and middle ground are filled with numerous tulip plants. Each plant has several long, lance-shaped green leaves. Many of the plants have unopened buds, which are a pale yellowish-green color. Some buds are beginning to show a hint of pink or red at the top. The background is a dense field of similar plants, creating a sense of a large garden. The ground between the plants is covered with dark brown mulch. The overall lighting is soft and natural, suggesting an outdoor setting during the day.
